

Product Name: Pinned
Team Name: Pinned Team
End Sprint: 12/3/17
Revision Number: 1
Revision Date: 11/20/17

Goal

Our goal for this sprint is to add the final core features, polish up the UI, and perform final testing. After all this is complete we would like to host the website.

Task Listing

1. **[13]** As a user who values a quality experience, I want to be able to rate users according to reliability, experience, etc.
 - a. Create the form from the mockup (4-5h)
 - b. Link the form to the backend (2-3h)
 - c. Fix the notifications button/list (3-4h)
 - d. Link the form to the notifications (3-4h)
 - e. Add the user rating to the user's profile (3-4h)
2. **[5]** As a user who doesn't want to constantly be checking the app, I want to get notified of events around me.
 - a. Create notifications based on certain distance from user and on user's interests (notification should be of interested event nearby) (5-6h)
 - b. Notification should link to the event page (3-4h)
3. **[8]** As a user I want to be able to create my own tags for events/my interests
 - a. Decide how to integrate adding an interest on the event creation form and on the user profile (1h)
 - b. Allow user to create new interest in this way (4-5h)
 - c. Link to the backend (2-3h)
4. **[5]** As a user I want to be able to navigate throughout the website more conveniently
 - a. Make clicking on pin take you to event page instead of clicking on the message that appears when you hover over the pin (2-3h)
 - b. Redirect from login page to map if already logged in (3-4h)
5. **[8]** As a user, I want to be able to access the deployed website
 - a. Deploy website on heroku (7-8h)

Sprint Backlog:

- [8]** As a user who only wants to play with my own friends, I want to be able to create "private events" and share them with selected people.
- a. Make changes to the backend and model to include private events (3-4h)
 - b. Add functionality in backend to distinguish between public and private events (3-4h)
 - c. Choose between public/private upon event creation (2-3h)

- d. Functionality to invite other users (4-5h)
- e. Add private/public filter to map (3-4h)

Team Roles

Lorenzo: Back-end developer (Product Owner)
Henry: Front-end developer
Andrea: Front-end developer
Mattheo: Back-end developer
Alessia: Back-end and front-end developer (Scrum Master)

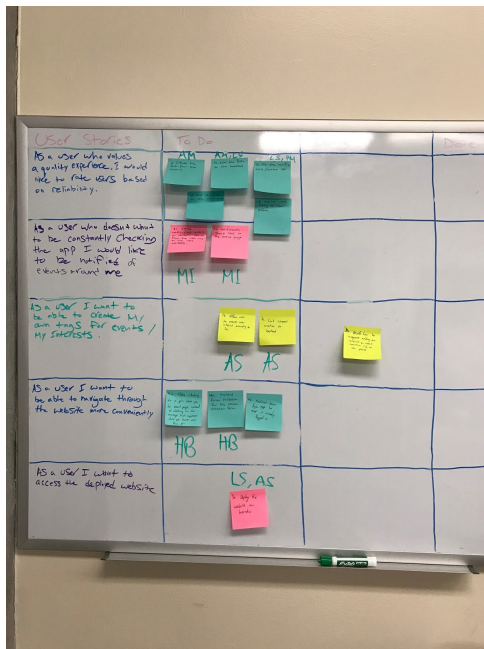

Initial Task Assignment

Lorenzo: 1b, 1c, 5a
Henry: 4a, 4c
Andrea: 3b, 3c, 5a
Mattheo: 2a, 2b
Alessia: 1a, 1b, 1c
