

Sprint 4 Report
Pinned
December 3, 2017

Actions to Stop Doing

- Stop attempting to complete tasks on the final day of the sprint
- Stop performing large merges every couple of days and instead make merging a daily routine

Actions to Start Doing

- Start focusing on user experience instead of additional features
- Start splitting large code files into smaller individual files in order to increase readability and organization
- Start doing more pair and group programming in order to increase everyone's understanding of the system.

Actions to Keep Doing

- Continue using the agreed upon coding conventions
- Continue using git for source control
- Continue holding regular scrum meetings in order to keep the team up to date on what is going on
- Continue updating the scrum board as tasks are completed

Work Completed/ Not Completed

- As a user who values a quality experience, I want to be able to rate users according to reliability, experience, etc. **(not completed)**
- As a user who doesn't want to constantly be checking the app, I want to get notified of events around me. **(complete)**
- As a user I want to be able to create my own tags for events/my interests. **(completed)**
- As a user I want to be able to navigate throughout the website more conveniently **(completed)**
- As a user, I want to be able to access the deployed website **(completed)**
