

Product Name: Pinned
Team Name: Pinned Team
End Sprint: 11/05/17
Revision Number: 1
Revision Date: 10/22/17

Goal

Our goal for the second sprint is to create a simple website with the core features outlined in our sprint 1 user stories. These features include setting up a basic map and adding the functionality to create, view and join events.

Task Listing

1. **[8]** As a user who prefers to join existing events, I want to view and request to join events around me.
 - a. Understand how we can get the user's position in order to center the map (1-2 hours)
 - b. Create pins on the map for each event that should be visible for the user (3 hours)
 - c. Setup backend for supporting event participants storage and handling (1-2 hours)
 - d. Enable event-joining feature (4-5 hours)
 - e. (dis)allow event joining (1-2 hours)
2. **[3]** As a user who prefers to create his/her own events, I want to add information to my event such as time, gear to bring, and number of people needed.
 - a. Make new interface mockups for event creation (2 hours)
 - b. Create an event detail page to display information about a specific event. (2-3 hours)
 - c. Modify interface in order to allow the user to enter additional info about the event (2-3 hours)
3. **[5]** As a user who maintains many social networking accounts, I want to be able to login with Facebook, Google, etc.
 - a. Login page (2 hours)
 - b. Store information from facebook, Google in the model: username, password (3-4 hours)
4. **[5]** As a user I want to be able to view my and other users' profiles
 - a. Update the model to include personal settings (3-4 hours)
 - b. Make mockups for user profiles (1-2 hours)
 - c. Create the profile page displaying info, picture, personal events (4-5 hours)
 - d. Add interests specification in the profile page. (2-3 hours)
5. **[5]** As a user who has specific interests, I want to filter the events in the map by categories/tags.

- a. Check-box to show/hide events according to user's interests, save settings for each user (5 hours)

Team Roles

Lorenzo: Back-end developer (Product Owner)

Henry: Front-end developer

Andrea: Front-end developer

Mattheo: Back-end developer (Scrum Master)

Alessia: Back-end and front-end developer

Sprint Backlog

1. [5] As a user who likes to stay connected, I want to follow other users on the platform.
2. [8] As a user who has specific requests, I want to comment on an event. (push this?)

Initial Task Assignment

Lorenzo: 1.a, 1.c

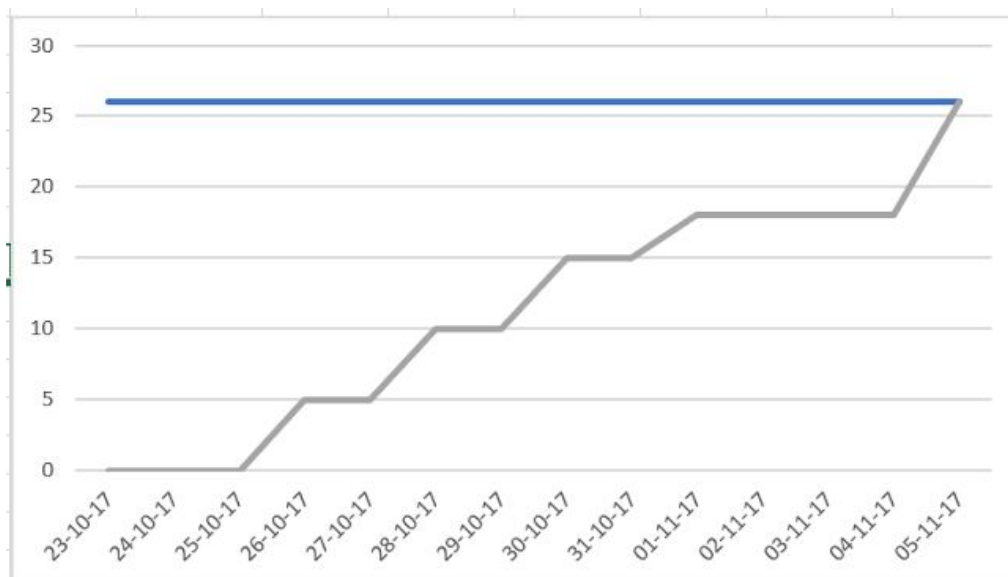

Henry: 4c, 4d

Andrea: 2.b, 2.c

Mattheo: 4.b, 4.d

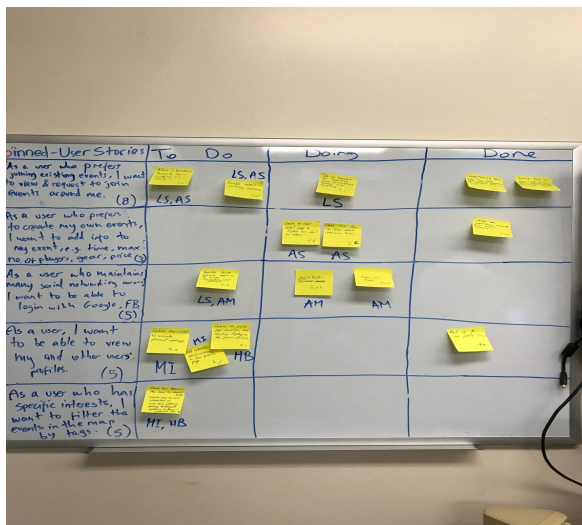

Alessia: 3.a, 3.b
