

Release Plan - Pinned

Team Name: Pinned Team
Release Name: Pinned v1.0
Release Date: December 3rd, 2017
Revision Number: 0
Revision Date: 10/10/17

High Level Goals

1. Be able to create and view location based sporting events (sprint 1)
2. Deliver a personalized and interconnected user experience (sprint 2)
3. Implement methods to ensure users have a safe and positive experience (sprint 3)

User Stories

- **Sprint 1 - total [29]**
 - [13] As a developer, I want to get a basic website running with a map and a simple menu.
 - [8] As a user who prefers to create my own events, I want to drop a pin where I would like to host my event.
 - [5] As a user who prefers to join existing events, I want to view and request to join events around me.
 - [3] As a user who prefers to create my own events, I want to add information to my event such as time, gear to bring, and number of people needed.
- **Sprint 2 - total [26]**
 - [5] As a user of the app, I want to be able to login with Facebook, Google, etc.
 - [5] As a user who doesn't want to see pins for sports which I don't play, I want to specify my unique interests.
 - [8] As a user who has specific requests, I want to comment on an event.
 - [3] As a user who creates lots of events, I want to (dis)allow other players to join the event (e.g. if the top capacity has been reached).
 - [5] As a user who likes to stay connected, I want to follow other users on the platform.
- **Sprint 3 - total [21]**
 - [8] As a user who values a quality experience, I want to be able to rate users according to reliability, experience, etc.
 - [8] As a user who only wants to play with my own friends, I want to be able to create "private events" and share them with selected people.
 - [5] As a user who has specific interests, I want to filter the events in the map by categories/tags.

- *Sprint 4*

- **[8]** As a user who doesn't want to constantly be checking the app, I want to get notified of events around me.
- **[5]** As a user who doesn't want to receive a thousand emails per day, I want to be able to set notification preferences.
- **[13]** As a user who has specific requests, I want to be able to chat with others on the app.

Product Backlog

- **[8]** As a user who values organization, I want to browse, add and review places by categories.
- **[5]** As a moderator of the app, I want to monitor the creation of events to prevent offensive material.
